

## Allied Health & Behaviour Support

To support you in achieving your outcomes and goals, our staff work behind the scenes to provide you with the best possible services, in addition to your face-to-face appointments. This support may include undertaking work such as coordinating your services, sourcing equipment, writing reports and organising any referrals. Where necessary, these services will be billed at the hourly rate as part of the service we provide, and we will be transparent about such charges. Any work we charge you for will be clearly and directly linked to the goals you are seeking to achieve.
